As the excursion did not take place Tuesday night on account of rain, the ice cream which had been prepared for that occasion was taken to the Masonic hall and the good people of the town congregated there, ate the ice cream and spent the evening in a most social manner.

Many years practice have given C. A. Snow & Co., Solicitors of Patents, at Washington, D. C., unsurpassed success in obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column, will be of interest to inventors, patentees, manufacturers, and all who have to do with patents.

Professor C. N. Faulk of the Portland university was in town Saturday. Mr. Faulk is spending a few days on Milton creek, the guest of Newton Perry. The Portland university is located at Portsmouth on the east side of the Willamette just above St. Johns. The proposed school buildings will be three, all the same size—130x65 feet—built of brick and stone. Also a boarding hall for the pupils. The full term opens September 14th, and awaiting the completion of the university buildings at Portsmouth, the faculty have secured a lease on St. Helens Hall for the full term, in fact until their own buildings are completed, which will be about a year hence. This is a new institution under the presidency of C. C. Stratton, D. D., which in itself is an excellent recommendation.

United States District Judge Hanford, of Seattle, Tuesday made an important interpretation of that part of the Chinese exclusion act requiring the deportation of Chinese who have come into this country in violation of the exclusion acts. Heretofore all Chinese who have succeeded in getting in who have been caught have been sent to China. Judge Hanford's decision is that they shall hereafter be sent to the country from which they came. This will send all the Chinese who come in hereafter back to British Columbia. The case in which the Judge made the decision was that of Lee Hem Bow, one of the Chinamen recently brought over the line at Sumas by Cowboy Terry and over whom the shooting occurred at Woolley. Lee's residence in British Columbia was fully established. United States Commissioner Emery had ordered his deportation to China. The Judge finally decided to hold the prisoner as a witness in the Baird shooting affair, and he was placed under \$500 bonds and allowed to return to British Columbia. In summing up the case Judge Hanford stated that in the future he would interpret the phrase, "To the country from whence they came," with the greatest latitude. "In the present case," said the Judge, "I think British Columbia is the place meant by the phrase, and I will issue a writ of deportation to that place when the witness is no longer wanted, and will hereafter do the same with other similar cases which come before me."

Dr. and Mrs. Blanchard will start for the doctor's brother who resides about seven miles west of Portland, next Saturday for the purpose of benefiting the doctor's health. They expect to remain there a few days then Dr. Blanchard will go on to Hillsboro to consult with Dr. Bailey who has been treating him. It is their intention to travel until they find a climate more suitable to the doctor's present feeble constitution, which we hope may be found without going too far away.

Last Friday morning Joseph Romblasky was seriously if not fatally injured at Brinn Bros. logging camp on Milton creek by a falling maple limb, which was struck by a tree. He was hit on the head and back. He was taken to Portland last Sunday by L. Crossett. The accident is an unfortunate one, as he has a wife and several children living on the head of the Clatskanie.

The steamer Rapid Transit, with a cargo of lime on board consisting 2300 barrels, buried at Seattle last Friday just as she was leaving the wharf on her way to Tacoma. The lime became wet and the slacking of it caused the fire. The lime was from the Roche Harbor lime works, and the steamer was owned in Whatcom. The loss, total, will be about \$20,000; partly insured.

Owing to unfavorable weather the moonlight excursion which was to have taken place last Tuesday night, under the auspices of the M. E. and Evangelical churches of this place, was postponed until this (Friday) evening, leaving St. Helens at 7:30 and arriving at Vancouver at 9 p. m. We hope to see a large crowd attend and guarantee a pleasant time.

Mr. Thomas Cooper started his threshing machine Monday at Mr. Hall's near Warren. This is the only machine near St. Helens and the prospects are fair for a good run as the crop is above the average this year. Mr. Cooper says he intends to thresh every thing that comes in his way—of course he means grain.

The business men of Johnstown, Pa., held a meeting the other night for the purpose of considering the advisability of bringing suit against the South Fork Club for damages sustained by the great flood. It was voted unanimously to institute proceedings at once. At the meeting, funds were raised to defray legal expenses.

Volume I, No. 1, of the Hillsboro Democrat is before us, published by Phelps and Sanford. The paper is a six column folio, both sides printed at home, and typographically presents a neat appearance. The editors are newspaper men of considerable experience and no doubt will be successful in their new venture.

MARSHLAND ITEMS.

August 11, 1891.

Miss Clara Ronald, who has been spending the last two weeks with friends and relatives of this place, returned to Oregon City Tuesday.

Mr. and Mrs. Tom Colvin paid a visit to friends and relatives in Nehalem the later part of last week.

Miss Julia Graham made a flying trip to Clatskanie Sunday.

Croquet playing is all the rage at S. M. Graham's this summer. Thirteen was on the ground at one time.

We are sorry to state that J. W. McDonald, a former citizen of Marshland, had his foot badly cut a short time ago.

The wedding that was to be did not take place as was expected. We do not know the reason unless Mr. —'s girl went back on him.

A party consisting of Mr. and Mrs. Chas. M. Graham, Misses Clara Ronald, Lousia and Mabel Graham, Donia Davey and Messrs. Silva and George Graham went on a fishing excursion last Sunday and camped out over night, returning home early next morning with the report of having had a very pleasant time.

The social dance and basket lunch at Freeman's landing, last Saturday evening, was a grand success. Marshland and Warren's Island were well represented. Music was furnished by Prof. Dudd and everyone spent a happy and pleasant evening. Great credit is due H. L. Warren, Mr. Weiss and A. S. Graham for their able management. Only one little incident happened which happily did not interfere with the evening's enjoyment. On opening the lunch basket it was discovered a young man had accidentally stepped on the pies and smashed them. That was the only "mash" made during the evening.

ODD FELLOWS.

DEER ISLAND.

Splawn Bros. have bought George Bevis' interest in the sawmill of Bevis, Nichol & Bevis. The firm is now known as Bevis, Nichol & Splawn. Mr. Bevis left for Indiana last Sunday night. It is worthy of note that the sawmill has been running ever since he has severed his connection with it.

A. F. McDonald was out in the Carico valley and Clatskanie parts of his road district last week and appointed Jessie Hendricks as deputy supervisor.

Wilfred Miller, of the head of the Clatskanie river, has timber that will go 600 logs to the acre and yet this is only a sample of what timber is in this valley.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

Washington, August 14, 1891.

This has been a decidedly bad week for the Gorman Presidential boom which has lately been on the rampage. It received two separate and distinct set backs in as many days, and it may be that it will have to be taken off the track for repairs. First the Gormanites, who had supposed themselves in control of the executive committee of the National Association of democratic clubs, which met in New York City, discovered that they had made a big mistake, and that a majority of that committee were unalterably opposed to the candidacy of the Marylander. Then the Maryland Farmers' Alliance convention jumped on the boom by making the intimation so plain that even he who ran might read, that it would control the next Maryland legislature; that it intended naming the successor to the late Senator Wilson, and that unless Senator Gorman "walked a chalk line," so to speak, it would not allow him to be his own successor. Of course if he fails in his effort to be elected to the Senate that would effectually end his presidential aspirations.

Attorney General Miller who has stuck manfully to his desk during the summer, turning out an amount of important work which lawyers have pronounced phenomenal, has gone with his family to visit Secretary Proctor at his Vermont home, where he will be joined by the president in time to take part in the unveiling of the battle monument at Pennington, Vermont, on the 19th inst. He has earned a vacation.

Senator Plumb who has been hard at work in Washington almost interruptedly since the adjournment of Congress has been obliged to abandon his intended short European trip on account of work he has mapped out before him. He left Washington this week for a short visit to Boston, and in order to get as much rest as possible he went by water. No senator was ever more attentive to his constituents than Mr. Plumb, in fact he couldn't be.

The Department of State has telegraphed instructions to U. S. Minister Pichico to make a complete investigation into the alleged seizure of the Pacific Mail Steamship City of Panama by the authorities of San Salvador and wire the result. Officials at the department decline to express any opinion about the matter at this time.

Acting Postmaster-General Whitfield has decided that a non-resident cannot rent a box in any postoffice with a view to having his mail sent to that box and afterwards forwarded to him at his residence address. The decision is based on the assumption that the party who wished to rent the box desired to mislead the public as to his actual residence or place of business.

During the past few months the postal receipts at Chicago have shown a phenomenal increase, and officials at the Postoffice department say that they will not be surprised if the Chicago gross postal receipts shall exceed those of New York during the exposition and for a few months before it opens. Already the postmaster of that city has made requisition for an increased allowance for clerks to handle the business of his office, and it is expected that it will become necessary to ask Congress to make a special appropriation in order that the postal facilities of Chicago may keep pace with the business. This increase was looked for about next year and its consequent earlier arrival has caused surprise, but the department officials say they intend to do all in their power to see that the money is not lacking to give the World's Fair City a model postal service.

Senator Stewart, of Nevada, left here this week for the City of Mexico, and from there he expects to go to Nevada.

There is a well defined rumor, which acting Secretary of State Wharton will neither confirm nor deny, that Senator Squire, of Washington, has been tendered the position of Minister to China, to which ex-Senator Blair was appointed, but owing to objections on the part of the Chinese government he did not assume the duties of the place, which is still filled by Gen. Denby, an Indiana democrat.

Owing to the great demand for two dollar notes and the lack of time to get the plate ready for the new design which has been adopted for these notes, because of the counterfeiting of the old design, the Treasury department has given the bureau of Engraving and Printing orders to print 1,000,000 notes from the old plate, which has a vignette of Gen. Hancock. The new design, which will be used as soon as it can be got ready, has a vignette of the late Secretary Windom.

Letter From Rev. C. N. Plozman.

KINGS VALLEY, Aug. 14, 1891.

EDITOR MIST:—Please find room in your noble paper for this short letter.

First, we are all well and in good heart. Second, the work committed to our care is in a good condition spiritually. Third, we will begin a camp meeting on September 3, at Lewisville, in Polk county, near the

end of the narrow gauge railroad that leaves Portland every morning. The meetings will last over two Sundays. I have an anxious desire to meet some of my dear friends from Columbia county in that camp meeting. Dear brethren you can drive through in a short time with a team. Come, we will give you a hearty welcome.

C. N. PLOZMAN, Pastor.
